LeRoy C. Abbott Society Scientific Program

51ST ANNUAL
Verne T. Inman Lectureship

May 9-10, 2019 • Mission Bay Conference Center • San Francisco, California

OVERVIEW

This program brings together members of the Abbott Orthopaedic Society and faculty and residents of the UCSF Department of Orthopaedics in a collaborative presentation of recent advances and updates in orthopaedic surgery. Our schedule of presentations will address current clinical and research topics that affect clinician decision-making in day-to-day practice.

Course Highlights

- Exciting educational program featuring concise “hot topic” presentations on issues critical to clinical practice
- Panel discussions on spine and foot and ankle featuring our visiting professors
- **Thursday May 9th** – Happy Hour Social following the days presentations for networking
- **Friday May 10th** – Bones Ball Dinner and Reception at a signature San Francisco landmark: The Green Room

Call For Abstracts

We are seeking short (six minute) scientific papers of research or clinical interest for presentation. If you would like your work to be considered for presentation, please submit a 200-word abstract (without illustrations or citations) by **Friday November 30, 2018**.

Please submit a copy of the abstract in MS Word format, including the author(s) name(s) and address(es). You may send in an e-mail to Nicola Sequeira at nicola.sequeira@ucsf.edu.

The Program Committee will review the abstracts for appropriateness, clarity, and applicability to the program objectives. Accepted abstracts will be printed in the program. You may submit as many abstracts as you wish, however, no more than two abstracts from any individual will be selected.

The success of the meeting is dependent on the continued high quality of the presentations. We encourage all of you to contribute. Thank you.
